Severe storms struck this area in late December 2004 and early January 2005. The unusually heavy rain resulted in the complete washout and loss of the Rincon Creek Bridge (Bridge # 51-0140). Another Bridge, Bridge #51-0141, was destabilized by scour and needed replacement. The initial project was for the replacement of the two bridges. This supplemental allocation is due to the need to additional roadway excavation, rock slope protection and delays caused by nesting birds. Heavy silt load overwhelmed two highway culvert systems and posed imminent threat of overtopping and damaging the highway. The initial project was to clear the culverts of sediment and reestablish a downstream flow line. This supplemental is needed to make final payment and close out this contract.
